Skin ampoules

*High **concentration** of **active** ingredients*

Skin ampoules are the latest top trend. Single-dose with a high concentration of active ingredients, they work an instant effect on the skin. At Neftis Laboratorios we are excited about anticipating the boom by offering our customers a wide range of these future beauty essentials.

The volume chosen is ideal for using half the ampoule in the morning and half at night. They must always be applied to clean skin, and can be spread by gently massaging the face, neck and cleavage.

OF NOTE ARE:

- » Their high concentration of active ingredients
- » Their light, fluid textures
- » Their ease of spreading and absorption
- » Most oil free
- » Most silicone free
- » Indicated for any age

If you are interested in our new line, do not hesitate to ask us for more information. Samples are available for testing. Do not let your customers miss out on the magic of our energetic aqueous fluids.

CONTRACT MANUFACTURER

UNI EN ISO 22716:2008

UNI EN ISO 13485:2012

5% VITAMIN C & PG NEF312
10% VIT C NEF705.01
15% VIT C NEF705.03
VIT C YELLOW PEEL 10%
NEF264

Vitamin C, an excellent anti-inflammatory and anti-oxidant active. Neutralizes free radicals protecting the skin from pollution, UVA, UVB and blue light. It also protects cellule's DNA and stimulates collagen's production. It decreases fine lines and wrinkles. In addition to all this, has the capacity to fight dullness, even out skin tone and reduce dark spots.

ANTIAGING

NEF651

Combination of powerful active agents to combat the signs of ageing: sagging, loss of elasticity, and softens wrinkles. Firms and moisturises. Provides the face with firmness and brightness, attenuating the signs of fatigue.

ANTIAGING: PEPTIDES & HA

NEF656

Contains powerful anti-ageing active agents, together with the added value of low molecular weight hyaluronic acid and peptides. Helping to gradually correct wrinkles and prevent new wrinkles from forming.

ANTIPOLLUTION

NEF674

Protective shield and detoxifier. Prevents and acts against the ageing, dehydration and dark spots caused by external factors. Recuperates the skin's brightness. Rich in powerful antioxidants.

BLEACHING EFFECT

NEF257

The synergistic action of alpha-arbutin and licorice extract unifies skin tone and reduces skin pigmentation. It also contains vitamin C.

HYDRANEF

NEF652

To relieve dehydration. Recommended for dry skin, times of stress and changing seasons.

LIFTING

NEF694

Instant facelift (flash effect) and V-shaped facial contouring. Relaxes facial muscles preventing and/or reducing wrinkles and expression lines.

MATIFYING

NEF655

Purifies, reduces imperfections and detoxifies the skin, without for getting to moisturise it. For combination and oily skin.

NEUROCOSMETIC

NEF696

Stimulates night-time recovery for a radiant, dewy-glowing complexion in the morning. It contains an advanced neurocosmetic ingredient botox-like. It also protects the skin from inner stress signals inhibiting cortisol restoring cells natural circadian rhythm. Promotes the release of Beta-endorphins. Redensifies and restructures the epidermis. Skin is soother and wrinkles are less visible.

RETINOL 0.3% (ENCAPSULATED)

NEF711

Retinol or vitamin A speeds up skin cell turnover, fades pigmentation, shrinks pores, rebuilds collagen and elastin and retexturizes the surface of the skin.

SALICYLIC ACID 2%

NEF65

Recommended for oily or acne-prone skin. It helps to reduce skin's impurities and imperfections as exfoliates and clean both the skin surface and within pores. Brightens the skin and improves overall facial texture.

SMOOTH & BRIGHT

NEF653

Regenerates and moisturises the skin as you sleep. Contains natural alpha hydroxy acids which carry out a gentle external exfoliation of the skin, promoting cell renewal and hydration preventing signs of skin ageing.

XTRASHOOTH

NEF654

Active agents with anti-inflammatory and repairing properties. Indicated for sensitive and delicate skin.

BIPHASIC AMPOULES

They combine a part with oils, common to the whole range of ampoules, and a watery part that varies according to the functional activity to be obtained. The oily phase includes a 100% vegetable oil that nourishes, softens and provides the skin with great antioxidant benefits.

These two-phase ampoules have a light and pleasant texture. They are quickly absorbed leaving the skin velvety.

BIPHASIC Hydra NEF720

Rich in rhamnose, galactose and glucuronic acid, ingredients with anti-inflammatory properties and high protective capacity. This allows them to strengthen the skin barrier and reverse damage caused by external agents (UV, pollution, ...) that accelerate skin aging. At the same time, they act on the skin cells releasing β -endorphins, molecules of pleasure.

BIPHASIC Ectoin NEF721

Highly concentrated in Ectoin (2%), multifunctional active and with extensive scientific bibliography on the matter. It stands out for its calming, repairing and protective properties.

They visibly transform dry, scaly and rough skin into healthy, moisturised, soft and supple skin.

BIPHASIC Niacinamide NEF722

With niacinamide or vitamin B₃ (5%), a very popular active ingredient due to its excellent antioxidant and illuminating activity. It is also used as a purifier and to attenuate skin blemishes. Its use brings luminosity to the face. Its effect is combined with the Argireline peptide (3%), the perfect ally to rejuvenate the skin.
